# DEVELOPER FORUM MOM

## 1 Agenda

- Introduction
- STM status and updates
- Maritime Digital Infrastructure
- Navelink
  - MCP
  - STM Development
- Data Formats and Standards
- Technical Standard Forecast
- Q&A
- Secom Demo

## 2 Minutes of meeting

- Is there any obstacles for migration MCP->Navelink? We are available for support if needed. No problems reported.
- Test suite for service instances and if they follow VIS design is implemented. A future requirement for setting a service instance to "release". Will be demonstrated in future DevForum.
- Demo and example  
How To Download service instance document
- Demo of how to use the Agent feature in MCP.
- Status: S-421 Route Plan document soon to be released as CDV, Committee Draft for Voting.
- Schema still under revision from summer changes...
- The final S-421 Schema and examples will be publish on <http://cirm.org/s-421>
