# DEVELOPER FORUM MOM

## 1 Agenda

- Walkthrough of Trello board
- Navelink How to connect to VIS instance
- Navelink VIS-hotel

## 2 Minutes of meeting

- Navelink is to provide an alternative for hosting a service instance registered in Navelink. The first phase constrains the services to instances based on design Voyage Information Service (VIS) v2.2.
- Later, support for SECOM service can be added to this.
- Demo of how to use VIS hotel for your VIS instance.
